

## **The Ebooks that we offer**

### **How the Download process works**

We Do Offer Ebooks in PDF Format, many of them.

They can now be obtained without human Interference in the Download Process.

As soon as a person pays, they are then taken to a download page.

They can chose where they want the file to download to, and then activate the download.

The Download then completes and the person has the Ebook inside their computer.

When they click on that Ebook, the person is then taken to a registration page first.

That Registration page then asks them for an email address.

The process then authenticates that email address, and then releases the PDF Ebook which you can then enjoy

The Next Page will show you the Registration Page that each person is taken to.

As you will see, it is pretty simple, and as others point out, if purchase is being done with Paypal, your email is already a matter of record. So there should not be any real difficulty.

Here is that Registration Page

Sample Copy of the Registration Screen  
(what the screen will look like...when you register)
